

IMAGINATION BOX CO.

"The Right Toys For The Right Time!"

General Certificate of Compliance CPSIA

At **Imagination Box Co.** we take the safety of our toys very seriously, which is one of the many reasons we decided to manufacture in the USA. We are 100% USA made and proud of that fact!

We would like at this time to address both retailer and consumer concerns regarding the new CPSIA law that was passed by Congress last year and how it applies to us:

Lead limits for uncoated surfaces will be 300 ppm by August 2009:

The corrugated board from which our products are made come from Sheets Unlimited, have been tested by a third party and are well below 100 ppm. A Certificate from Sheets Unlimited may be obtained from us upon request. The printing dyes used on our toys are non-toxic and water based. They are the same dyes that you find in books and at this time (let's hope not ever)are not part of the new law.

The set of watercolor paints that come with each of our kits is manufactured by Sargent Art, of Pennsylvania and already comply with ASTM D-4236, which indicates their safety. They are virtually lead free! A Certificate to this effect may also be obtained from us upon request.

You have our assurance that we will continue to be vigilant in regards to the safety and quality of our products. Please feel free to contact us with any further questions.

We appreciate your support!!

Sincerely,
Kim and Russell Cash
Imagination Box Co.
