

## PRODUCT SAFETY INFORMATION

January 5, 2009

As a result of the recent publicity regarding toy safety issues, Kubit2me, Inc. would like to reassure our customers and retailers that it is our top priority to provide a fun and safe game experience for all. We understand your concerns and are committed to providing the safest and highest quality products for children of all ages.

Kubit2me plush cubes and game components are manufactured by reliable factories, were tested for heavy metals and toxicity, and passed all tests according to USA Child Safety Regulations under ASTM 963. Regarding concerns for lead paint, Kubit2me plush cubes and game components do not contain surface paint or screen prints that contain paint, and as such, do not pose a threat.

Please be assured that we will continually monitor the safety and quality of our products, and feel free to contact us with any questions.

We appreciate your continued support.

Mary Kay Russell, President  
Kubit2me, Inc.
