If our top national awards don't convince you, maybe the reviews from parents and teachers will!

"I am still amazed my son (5 1/2) sat in front of the computer with me for 50 minutes and practiced... several times my son hugged me and the experience was finalized with my son's statement of 'I love writing!'" (K-2 Teacher & Parent, San Diego/ABC DVD)

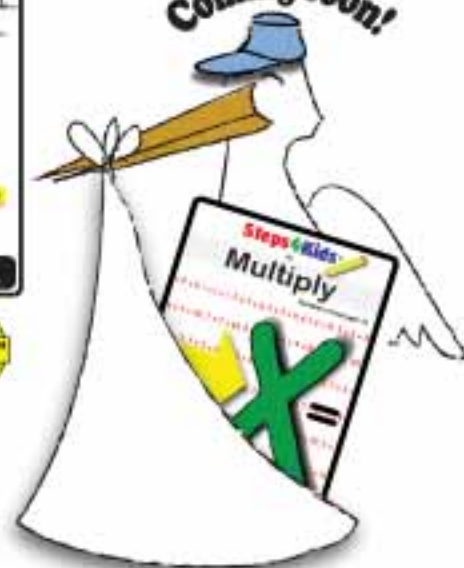

"The step-by-step instructions on how to use the pencil and the section on 'lefties' was great... The slow showing of how to use or make your letters and the explanation was fantastic... All parents should show their kids this DVD. It is informative and very impressive material." (Excerpts from Reviewers in the Teacher's Choice Award Program/Cursive DVD)

"This is a totally innovative and unique approach to handwriting. Introducing letters by their stroke similarity rather than alphabetical order makes it a lot easier for children!" Homeschooling Mom of 3, Missouri
