

better analysis counts

HDXRF for Compliance & Safety

Analysis solutions for regulated elements

- Complies with ASTM F2853 and F2617
- Used by CPSC's test lab
- Precise for both PAINTS and SUBSTRATES
- Unprecedented ppm detection performance
- Fast and easy non-destructive testing - more cost efficient

Features and Benefits

- Rapid screening
- Precise quantification
- Minimal sample preparation
- 1 mm analysis area for accurate results with small and irregular shapes
- 10 elements (ASTM F963, + Br and Cl)
- In-factory inspection
 - Raw materials
 - Components
 - Work-in-progress
 - Final inspection
- Enclosed - safe to operate
